

System Requirements

The system requirements for Flexicoder are the same as those for Microsoft Dynamics GP. You can review the Microsoft Dynamics GP 2016 System Requirements documentation on CustomerSource or PartnerSource.

Prerequisites

Installing Flexicoder 2016 requires that you are using Microsoft Dynamics GP 2016.

Registration Keys

After installing this Flexicoder build, you will need registration keys for it. If you previously had Flexicoder 2016 installed, once you install this update, you will not need to enter new registration keys. If you had Flexicoder 2013 or 2015 installed previously, you will need to enter in new registration keys for Flexicoder 2016.

Fix List

16.00.0001

- This release is a compatibility release for Flexicoder 2016. It allows Flexicoder to be compatible with Microsoft Dynamics GP 2016.

16.00.0002

- Flexicoder is adding extra distribution when recoding the cash account on a SOP invoice that was transferred from an order.
- Limited users receive an error launching Dynamics GP when Flexicoder is installed
- When you enter an invoice with a negative item quantity and positive prices, it uses the wrong sales account.
- Flexicoder Registration - not able to reach registration window in company other than TWO

16.00.0015

- Flexicoder throws "All call stacks in use when recoding RMA inventory Offset Account
