

Release Notes

Installing

The documentation on how to install can be found in the SmartConnect Manual in the Installation Section. Please review the Installation Prerequisites before installing SmartConnect

Upgrading

If you are currently using SmartConnect 2014 or an earlier version, SmartConnect will need to be run through the update process. The documentation on how to upgrade can be found in the SmartConnect Manual in the Installation section. Please be sure to review these steps as there is a process that needs to be followed to update correctly.

Registration Keys

After installing this SmartConnect build, you will need registration keys for it. These keys are available from your Partner or by calling eOne at 888-319-3663.
