## About eOne Pricing

eOne products are available to purchase as perpetual licenses with annual enhancement or as monthly subscriptions. Complementary training services and support offerings are available.

Promotions and offers are now also available for product combinations and for transitioning to new product and service offerings.

For customers on eOne's perpetual license model, the Annual Enhancement Plans (AEP) now includes regular hotfixes, service packs, functional releases, two support incidents per year, and the ability to work with eOne's support and services team.

## About SmartConnect Pricing

For SmartConnect, we've introduced subscription plans. SmartConnect can be purchased as a monthly subscription plan or as a perpetual license plan. SmartConnect monthly subscription plans are designed to be inclusive of dual use rights to SmartConnect on-premise and SmartConnect.com with certain levels of training, technical support, templates and services at reduced rates included, depending on the plan.

SmartConnect perpetual license plans include the on-premise SmartConnect product only. Complementary support and services may be purchased separately.

### What's a connection?

A connection refers to any system that you want to integrate to or from. It may be a Dynamics 365 Sales/CRM organization, a Dynamics NAV on-premise solution, Salesforce instance or any of our available connectors. When you create that "connection" you are then able to use it in a data source or as a destination.

Please note that for files specifically, when you configure a file as an integration point (source or destination), a connection is counted since you are using that connection type. A file could be a Text/CSV, XML or Excel file type. SmartConnect is not counting each individual file used as a connection.

**What's included in the Monthly Subscription Plan?**

**Dual use rights to use SmartConnect.com or SmartConnect on-premise**, so you have the choice to deploy your integrations in the cloud or on-premise. Depending on the plan, we also include other benefits for training, unlimited phone and email support, templates, and onboarding success plans.

**SmartConnect Perpetual License**

### Recommendations

Whether you have decided on an on-premise or cloud-based solution, it is highly recommended that each customer receives training and support on the products. We offer a wide variety of support and training options, as well as a service team that can act as an extension to your team if you do not have time to implement your project. Please take a look at the training, support, and service offerings for more information. If you'd like more details, please reach out to [sales@eonesolutions.com](mailto:sales@eonesolutions.com).
